FULL-STACK DEVELOPER · AI/ML ENGINEER · DESIGNER · NIGERIA (WAT) · OPEN TO REMOTE WORK

I design, build and ship web, mobile and AI products end to end. Hands-on with React, Next.js, TypeScript, Python and LLM integration, with production work on Cloudflare, Supabase and Vercel. Final-year ML research on low-resource Yoruba machine translation. Independent publisher with about 20 books and nearly $2,000 in organic sales.

SELECTED PROJECTS

Westhomes Property Hub · client build · westhomeshub.com

2026

- Full real-estate platform (rent, sale, shortlet, cars, boats) with admin roles, approvals and a Telegram bot that turns WhatsApp-style posts into listings using AI.
- AI chat assistant with human handoff, push alerts, daily email digests and staff work email. Runs on Cloudflare's free tier, so the client pays no monthly fees.

Astro · TypeScript · Cloudflare Workers, D1, R2, Workers AI · Resend

KonnectKWASU · founder · campus social app

2026

- Social app for Kwara State University: feed, marketplace, groups and official pages, with matric-number verification and end-to-end encrypted chat synced across devices.

Expo · React Native · TypeScript · Supabase (Postgres, Auth, Realtime, Storage)

Open LLM Serving Platform

2026

- Chat product serving Mistral 7B, Qwen 72B and DeepSeek R1 from Google Colab GPUs through a Flask API (/generate, /health, /switch, /models); 4-bit quantization fits 70B models on one A100; Cloudflare Tunnel for a stable public URL at zero infrastructure cost.

GREady · greadyprep.vercel.app

2026

- GRE prep PWA with section-adaptive full-length tests mirroring the real exam, AI essay reviews and offline progress.

Next.js · PostgreSQL · Prisma · Zustand

KDP Mate · desktop app and browser extension

2026

- Windows app for Kindle authors: keyword and niche research, bestseller-rank analytics, sales estimates and an opportunity score, on a local SQLite database with a companion extension.

Electron · React · Fastify · SQLite

KlassLab · SurgeNet · MD Writers

2025 to 2026

- KlassLab: LMS with a Monaco in-browser IDE for SIWES cohorts (Next.js, Supabase). SurgeNet: WiFi hotspot billing with Paystack and vouchers (Next.js). MD Writers: my ghostwriting and publishing agency site.

RESEARCH

Context-aware Yoruba neural machine translation for digital banking

2026

- Final-year project: seq2seq NMT fine-tuned on banking-domain English and Yoruba corpora, with corpus augmentation and human validation; Streamlit demo.
- Student dropout early warning: logistic regression, random forest and XGBoost with SHAP explanations and threshold tuning.

EXPERIENCE

Independent Publisher · Amazon KDP 2023 to now

- About 20 books, nearly $2,000 in organic sales with no paid ads; keyword research, market analysis and cover design.

Python Tutor (SIWES) · KWASU 2026 to now

Software Developer Intern (SIWES) 2024 to 2025

EDUCATION

B.Sc. Computer Science · Kwara State University 2022 to 2026

SKILLS

BUILD	React, Next.js, TypeScript, Astro, Node.js, Python, Flask, Expo / React Native
AI / ML	PyTorch, Hugging Face Transformers, fine-tuning, quantization, NLP, scikit-learn, SHAP
DATA & INFRA	PostgreSQL, Supabase, SQLite, Cloudflare Workers, Vercel, Docker
DESIGN	Figma, UI/UX, design systems, brand identity
